## TRAUMATIZED AMERICAN...

"The Chicago Call" is what it is called. And it is the result of an early May meeting of 46 scholars from 14 Evangelical colleges and seminaries, urging "fuller maturity" for Evangelicals by abandoning narrow "sectarian mentality."

So says NEWSWEEK.

This meeting is representative of a less publicized development in an otherwise recent marked upsurge in membership among ultra-conservative Protestant churches and Catholic charismatics. How well the numbers game is holding may be another question.

This "Chicago Call" movement is among younger theologians who suggest a return to classic Protestantism or even pre-Reformation Catholicism in interpreting faith.

Noted growth in conservative religions like Southern Baptists, Lutheran (Missouri Synod) in recent years is betwixt realities of theological conflict and wavering styles of religionists, including Evangelicals who tout "anarchic individualism" and move away from objectivity in Biblical interpretation.

It may be a major movement. Students at Wheaton College, Ill., are influenced by the papers of C. S. Lewis, an Anglican don, now deceased, NEWSWEEK says. Wheaton is one of the Evangelical campuses in the background of Billy Graham, Protestantism's most fervent advocate for personal religion and even literal interpretation of the Bible. The other is Bob Jones University, N. C.

The Church's problem is schismatic: the fervor is among the conservative, individualized churches and charismatics, but the power resides still in the Christian mainstream. Now, there is as much chaos as order.

It seems the American church is as divided as the American politics of November, 1976. The electorate went for Jimmy Carter, making him a 49.7 percent plurality president, and Jerry Ford a 47 plus percent loser.

## Rosebud Voters Approve Sale Of Liquor By Drink

Rosebud residents approved by a near 2-1 margin the sale of liquor by the drink during a Saturday election. Final tally was 217 votes for the measure and 125 against.

The 342 votes cast was described by an election judge as a "healthy turnout" in the town of 1,496 residents.

Rosebud has permitted the sale of beer for on-premise consumption and package sales of beer, wine and liquor. The issue of mixed drink sales arose recently when the Peach Tree Restaurant, then under construction, applied with city authorities for permission to serve mixed drinks with meals. A local observer described the controversy as "heated," with strong campaigns by both sides since the election date was announced April 28.

Falls County commissioners set the election after they received a petition signed by 106 persons requesting liquor by the drink in the city.

## Traffic Mishap Claims Life Of Cameron Man

The second traffic death in 1977 for Milam County, both of which occurred in Cameron, was reported Tuesday when a Cameron man died as a result of being backed over by a state highway department dump truck.

Arthur Janicek of 1307 N. Travis died at 8:45 p.m. Tuesday in Scott and White Hospital in Temple.

Investigating DPS Trooper Milton Wright said Janicek apparently walked between a front end loader and the dump truck when the accident occurred in the 1300 block of N. Travis. Wright said the rear wheels of the truck rolled over Janicek.

The truck was driven by Wesley Henderson, a highway department employee.

Wright termed the accident unavoidable.

Not unlike what the "Chicago Call" portends, the Jimmy Carter Presidency faces going beyond a temporary 65 percent popularity to establishing cohesion in his own party and by implication greater cohesion in the alternative.

For any success, the President may aid both parties in establishing what is a Democrat and what is a Republican. Nationally, neither knows. In Texas, where political and religious orthodoxy are regional rote, there is still only one party where people get elected.

If "the Chicago Call" influences enough religionists, the established church may reaffirm broader Christian interpretation in American religious life, absorbing the Evangelicals whose emotion and economics are a narrow, but dynamic slice of contemporary religiosity.

"The Chicago Call" to conformity is one for order and reason, which may be interpreted as a move away from an American tradition of splintering sectarianism and return to European church traditions, now thoroughly traumatized American.

As this country runs out of a West to go to, it also runs out of "hell, fire and brimstone." It is one part of the American West which has been too long in going.

## Funeral Held For Rockdale Civic Leader

Funeral service for Harold M. Luckey, 69, former Rockdale mayor and chairman of the board of the Rockdale State Bank, was held Tuesday in Rockdale.

Luckey died Sunday night at his home.

A native of Rockdale, Luckey went to work for the Rockdale State Bank in 1931 as assistant cashier. In 1959 he became vice president of the bank, and in 1962 he was elected president. He was elected chairman of the bank's board about three weeks ago.

Luckey was Rockdale mayor for eight years and was vice president of the Rockdale, Sandow and Southern Railroad; vice president of Phillips and Luckey Life Insurance Company; and head of the local Salvation Army Chapter. He was a former director and president of the Rockdale Chamber of Commerce and the Rockdale Rotary Club.

Survivors include his wife, Mrs. Mamie Rhea Luckey of Rockdale; one son, John Harold Luckey of Irving; brothers, Dorrell Luckey of Fort Worth and Edward Luckey of Rockdale; a sister, Mrs. Bertha McLeod of Rockdale; and one grandchild.

## PLANNERS STUDY ACTION ON HOUSING NEEDS

An informal study is being conducted by a group of Cameron businessmen, city officials and others to be published in a brochure and made available to Shell Oil Co. and persons interested in moving to Cameron. The study was prompted by a re-

cent report made for Shell by Radian Corp. of Austin, which cited housing shortages in the city.

The shortage is expected to become acute in the coming years when Shell Oil start strip mining near Rockdale in the early 1980's.

Planners are also concerned about the workers who will come when Texas Power and Light Co. starts building a new electric generating plant at Alcoa's Rockdale plant this summer.

Construction by TP&L will begin

in June and the work force is expected to peak at about 500 in 1978.

Narvie Caperton, head of the study group and president of the Cameron Industrial Foundation, said businessmen in Buckholts were also compiling information to be incorporated into the brochure.

Caperton revealed these study results:

-- Builders have purchased sites in Cameron for the construction of two apartment complexes, one of 22 units and one of 24 units.

-- Two new mobile home parks will be opened soon in Cameron, in addition to the four now in the city.

-- About 150 acres joining the city limits are available for development by eight contractors in the city.

-- The Cameron city council is planning to annex several hundred acres suitable for housing development.

-- The Cameron Housing Authority is applying for a federal loan to build 50 housing units for the elderly.

-- A new 40 unit motel will open in Cameron this summer making two for the city.

-- 173 new homes have been built in Cameron in the last five years.

Housing is only one area on which the study group is compiling information. Others include transportation, education, medical services and parks and recreation.

## Pearson Named Assistant Milam County Attorney

The appointment of an assistant county attorney was approved by Milam County commissioners court in a called meeting Tuesday morning.

He is Robert W. Pearson, who has been serving as assistant district attorney for McLennan County for the past two years. The appointment of Pearson at a salary of \$1 per year was made by County Atty. John B. Henderson Jr.

Pearson will be associated with Henderson's private law office starting June 1, when his new appointment will also take effect.

In other business, commissioners approved Pct. 3 Commissioner Gerald Vinton entering into a lease-purchase agreement for a tilt-trailer, subject to approval by the county auditor. The \$7,500 cost will be paid out of pre-cinct revenue sharing funds.

Court also discussed payment for a room for an indigent county man who is an outpatient at John Sealy Hospital in Galveston; executed a release on a bond for 1976 on the county tax assessor collector; and discussed billing Falls County for housing a prisoner.

MONEY FOR MUSEUM - A check for \$500 is presented to Mary Belle Batte and Kay Green, both left, by Connie Anderle, third from right, and Sandy Walthal, vice president of Fleur de lis Garden Club. The money will be used for

glass doors for open shelving at the museum. The club raised the money with a White Elephant sale in April. Not shown is Bea Kestbaum, who along with Anderle co-chaired the project.

## Welfare Assistance Tops \$2 Million

People needing help in Milam County received a total of \$2,583,140 in care and services -- primarily for medically related assistance -- during fiscal year 1976, the State Department of Public Welfare says.

In its recently released annual report on welfare expenditures, the Department said the statewide total of joint state-federal programs was \$1,076-billion, with the Federal government providing about two-thirds of the funding. Federally-financed food stamps and commodities added another \$318-million.

All recipients of welfare assistance must meet stringent guidelines, set by both levels of government, for eligibility.

Over-all, medical payments in Milam County totaled \$1,655,814 with \$938,822 going to nursing homes and institutions, \$156,453 for prescribed drugs and \$560,539 for all other health care. Under Medicaid provisions, the "other" health care includes such diverse assistance as physicians' services, eye treatment, eye glasses, hearing aids, dentures and medical screening for children of needy families.

Only a fraction of the total ex-

penditures in Milam County, \$291,481 went to Aid to Families with Dependent Children, the only welfare program in Texas which provides direct cash payments to recipients.

The disbursement for food stamps in Milam County was \$597,608 and, for commodities, \$38,237. The Federal government pays the full cost of the food stamp "bonus" (the difference between what the recipient pays and face value of the stamps).

## Rec Program Signup Set For Saturday

Signup for the Cameron summer recreation program will be held Saturday from 10 a.m. until 2 p.m. at the Youth Exposition building in Cameron.

Interested youth and adults should bring their signed form for registration. The forms were distributed through the schools and will be available at the signup. A formal also appears in this issue of The Herald.

Fees for the courses will be \$2.50 each. All supplies will be furnished except batons, tennis rackets, and tennis balls. Classes will be held at the Cameron Community Center, Cameron City Park and the Cameron Action Center at O.J. Thomas Park. No classes will be held July 4.

The program is sponsored by the Cameron Arts & Service League and the City of Cameron, and is open to all youth and adults in the Cameron area.

Activities for ages 3-6 will include games, crayons, and baton twirling. For ages 7-9, there will be crayon drawing, embroidery, nail art, wood art, dancing, tennis and baton twirling.

Youth ages 10-14 will be offered drawing, watercolors, nail art, crewel embroidery, needlepoint, tennis, and baton twirling. For ages 15-adult, there will be drawing, needlepoint, quilt piecing, bridge lessons, "42" lessons, and tennis.

## THE NEWS IN BRIEF

### Union Settlement Reached

A threatened strike by United Steelworkers of America was averted Tuesday night when national union negotiators reached a settlement in Miami. Local 4895 in Rockdale had voted 657-2 Friday to stage a walkout if a settlement was not reached by midnight May 31.

### Milam Gross Sales Reported

Gross sales in Milam County for the last three months of 1976 totaled \$21,279,595 according to a report from State Comptroller Bob Bullock.

The figures are based on reports from 556 business outlets holding sales and use tax permits.

### Gunshot Victim Stable

Darrell Crawford of Buckholts was reported in stable condition at a Temple hospital late Sunday after suffering a gunshot wound at his Buckholts home around 9 p.m. Saturday. Preliminary investigation by the Milam County sheriff's department revealed that the wound was apparently self-inflicted. The weapon used was reportedly a .22 calibre pistol.

### MOD Walkers Feted

A total of \$1,960.16 for the March of Dimes was turned in by walkers at the Walkathon collection party Saturday night.

Melanie Wright won first prize for the largest amount of pledges collected; Karen Sue Braden won second place, and Jolene Kopriva placed third.

Prize for the youngest walker went to Loretta Stephens and Mrs. Balilio Reyes won the prize for the oldest walker. Pam Lewin received the prize for the drawing.

### 3 Charged For Burglary

Three Cameron men were charged in Justice of the Peace Jess Brock's court last week for the February burglary of the Fleming home near Cameron. Several guns and a guitar were taken.

Charged and released under \$5,000 bond each were Jimmy Baker, 21; Donald Ray Stanislaw, 17; and Howard Wardlaw, 17.

BEST IN DISTRICT - Cameron Evening Lions Club was first place winner in the Governor's District contest, as the best club in Division II. Displaying the first place plaque are, from left, Bill Huffman, James Walthal, Douglas Buck, Milton Wright and Charles Kunz.

## Day By Day...

While Rosebud is having trouble convincing Washington the population, by federal formula, has not declined 100 since the 1970 census, the South Falls County town voted liquor-by-the-drink in its first test.

There may not be any correlation, or there may be quite a correlation, such as Rosebud is going on to a modern stance (beer, wine and liquor were legal for off-premise consumption) to accommodate the shifting tides for this area.

Rosebud did another progressive thing some years ago in a consolidation with Lott for a new high school, which has resolved a roofing problem and is building new cohesion with the two communities in Falls County.

These events probably were precipitated years ago by a TIME magazine article which linked Rosebud with the failing fortunes of an agriculture economy, not only in Falls County, but throughout Blackland Central Texas.

So the debate over population between Rosebud's City Manager and the U.S. Treasury Dept., which says less revenue sharing goes with shrinking population,

may continue until some kind of headcount occurs.

The real headcount, the continuing progressive attitude toward modern needs, albeit a minor one in liquor-by-the-drink, may demonstrate that Rosebud really is dealing with the problem while trying to build enough housing for the demand.

Rosebud is unique in that the 1,500 population community has a rosebush in every yard, since years ago being cited by Ripley's "Believe It Or Not."

The latest "believe it or not" is the hassle on headcount on a critical money source, revenue sharing, for any community, looking for revenue sources.

We admire the pluck which this community tackles an increasing list of civic problems: a cracking city dam which threatened the water supply, the high school problem, the revenue sharing question, this problem, that problem.

To borrow a phrase, "everything will be rosey in Rosebud" as long as its residents are resilient enough to deal with civic problems one at a time, one day at a time.

### "Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to  
Review the Congressional Record Daily)

#### NURSING HOME FIRES SPUR SPRINKLER BILL

Rep. George M. O'Brien (Ill.) "..... Since the beginning of the 95th Congress, many of us have sponsored legislation to require that automatic sprinkler systems be installed in nursing homes and acute care institutions. This concept has been endorsed by many fire departments across the country...."

"There are two main approaches to providing Federal incentives to nursing homes to help them install the automatic sprinklers. One bill provides loans at low interest rates which would be made available to nursing homes participating under medicare and medicad. I have sponsored an alternate approach which would add Federal grants to rural care homes and to those homes with severe capital shortages. My bill applies to nursing homes par-

ticipating in the medicare, medicad, and veteran affairs programs....

"I invite any sponsors to my Bill H.R. 3780." (Some material follows):

From the Maryland Fire and Rescue Institute Bulletin) One of the major drawbacks in assuring that nursing homes are protected with sprinklers is the cost of purchasing and installing the systems. The bill will meet the monetary need of many nursing homes so they can install these vitally important sprinklers.

The legislation authorizes long-term, 20-year loans to eligible facilities in an amount necessary to cover the purchase and installation of automatic sprinklers. The loans would bear a low interest rate.

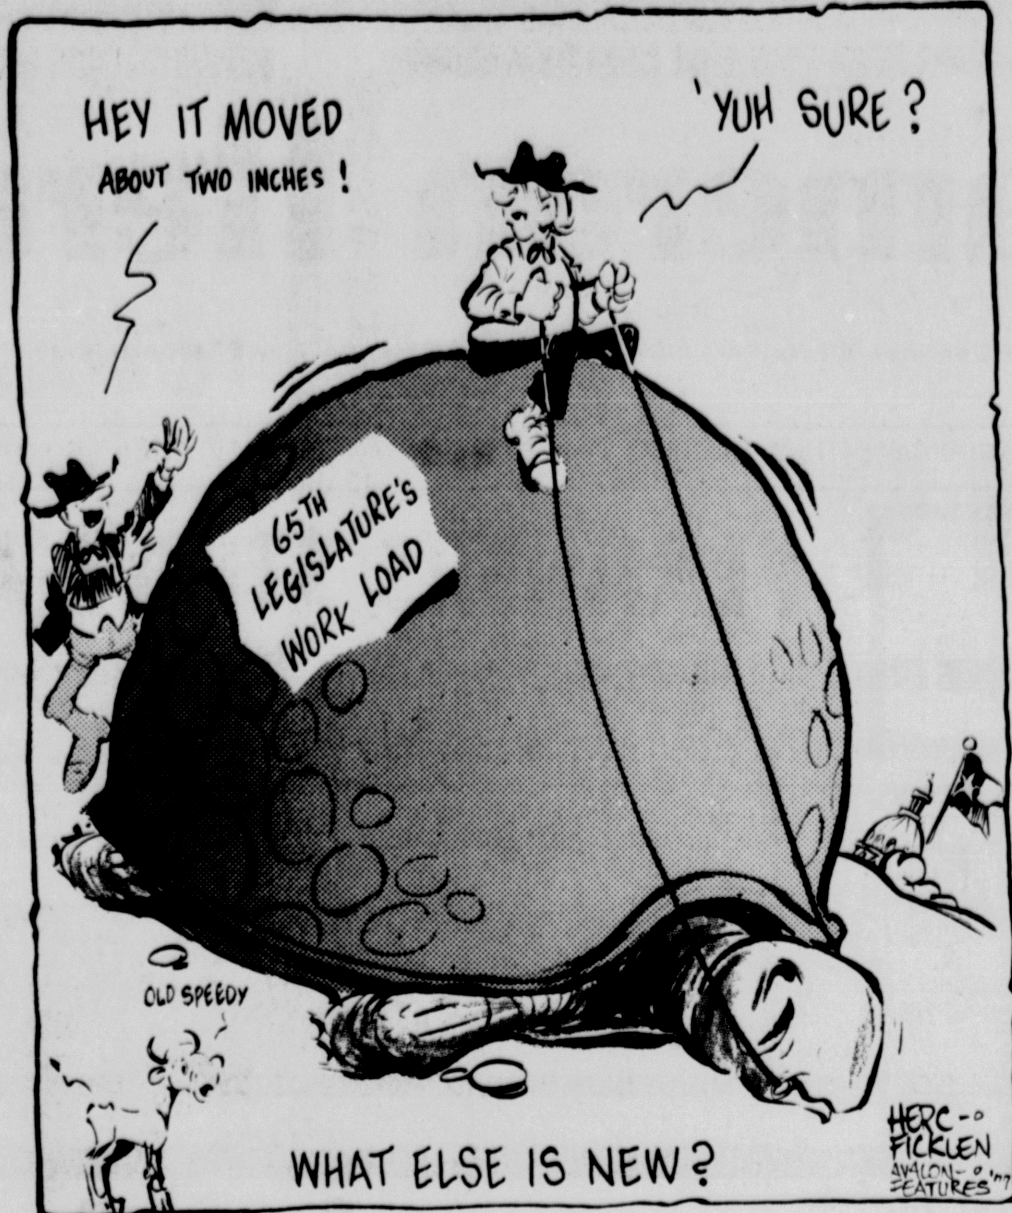

The bill also contains grant provisions which will help nursing homes serving primarily rural or low-income populations.

During his introduction of the legislation O'Brien referred to the tragic fire at the Wincrest Nursing Home in Chicago last January, resulting in the deaths of 32 people and injuries to 50 others. The Wincrest Home was of fire resistive construction materials and was further protected with a noncombustible roof. It complied with other Life Safety Code features, but it did not have the livesaving sprinklers.

Similar legislation was introduced in the last session OF Congress but did not receive serious attention from the same House and Senate Committees which now consider Rep. O'Brien's bill.

#### CRUMP'S GRASS ROOTS COMMENT

Unless your Congressman is advised of your interest in Automatic Sprinkler Bill H.R. 3780, it will die in committee.

## 65th's Major Finance Chores Unfinished

The 65th legislature is winding down, with most of its major finance chores unfinished but with significant legislation clearing both houses at a fast clip.

As the last week of the session began, lawmakers had still to accept a conference committee's version of a \$15.4 billion 1978-79 state budget.

They also had yet to resolve differences between the House's \$700 million school finance bill and \$373 million teacher pay raise measure and the Senate's \$820 million wrapup of both subjects.

Among issues on which both houses came to terms were the bill to bring Texas unemployment compensation laws in line with federal statutes. The measure also increases maximum unemployment benefits from \$63 to \$84 a week (with an escalator feature to cope with inflation).

Its passage assures Texas employers of retaining \$600 million a year in federal unemployment program tax credits and retains \$60 million in administrative aid to Texas Employment Commission.

The legislature has also passed and sent to the governor a bill to grant Texas motorists an exemption from insurance and drivers license "penalties" for speeding violations in the 55-70 miles per hour category.

Major casualties of the legislative session may be bills dealing with property tax reform and the medical malpractice crisis.

A variety of law and order compromise bills are finding their way through the legislative maze to Gov. Dolph Briscoe's desk.

#### Agencies Merged

Merger of three major state water agencies has legislative approval.

The consolidation act (SB 1139) combines the Water Development Board, Water Rights Commission and Water Quality Board under a new three-member State Department of Water Resources.

The six-member Water Development Board, effective September 1, will exercise legislative functions of the merged department. An executive director will handle administrative functions.

A three-member Texas Water Commission will exercise judicial functions of the department.

Veteran Texas Water Quality Board Executive Director Hugh Yantis Jr. acknowledges an interest in heading the big new agency.

#### Appointments

Gov. Dolph Briscoe named Bill Wallace Jamar Jr. of Brownwood, Edwin Bruce Street of Graham and A.M. Willis Jr. of Longview (reappointment)

to the North Texas State University Board of Regents.

Briscoe picked Rudolph Garza Jr. of Corpus Christi for the Texas A&I University board.

Charles A. Hallmark of Houston was Briscoe's new selection to the Credit Union Commission, while Jimmy R. Williams of San Antonio was reappointed.

E.B. "Tex" Mayer of La Grange replaced Elo J. Urbanovsky of Lubbock on the Texas Conservation Foundation.

Beeman Fisher of Fort Worth was assigned another six-year term on the Texas Turnpike Authority board of directors.

All three members of the board of regents Texas State University System whose terms expired this year were reappointed. They are Mrs. Edward A. Clark of Austin, Lee Drain of Dallas and James L. Powell of Fort McKavett.

#### Courts Speak

A divided Supreme Court held in a 5-4 decision that a divorce court cannot award one spouse's separate property to the other.

The high court upheld lower court findings in favor of a Dumas family doctor in a \$626,000 suit alleging malpractice.

A \$75,835 judgment against the state in a case where a highway depart-

ment truck injured a woman near Mexia was upheld by the Supreme Court.

The Court of Criminal Appeals reversed the burglary conviction of a Bryan man who complained officials took a blood sample from him and used it as evidence.

The Court of Criminal Appeals also threw out the life sentence given a young Dallas man for killing a Dallas policeman and upheld the death penalty assessed another in the shooting death of an Atascosa County deputy sheriff.

#### AG Opinions

County officials drawing

them still say, when an idea that superfluous comes up, "That's like carrying coals to Newcastle," when a better version is, "That's like hauling peanuts to Plains."

It takes a unanimous vote of 12 jurors to convict a gangster of a crime, but only a 5 to 4 vote of the Supreme Court to throw the conviction out.

We all ought to clear our desks out once a year and Congress every four years.

Yours faithfully,  
J.A.

County Agent's Notes

# Boll Weevils At Critical Stage

By Bill McCutchen  
Milam Co. Extension Agent

Much of the cotton crop in Milam County is approaching the critical 1/3 grown square stage. This stage usually occurs about 25 to 40 days after emergence and at about the 6th or 7th true leaf stage.

The reason that this stage is so critical is that overwintered boll weevil egg laying and the reproductive cycle is successful as cotton reaches this stage. The squares are large enough to support weevil development when they get about the size of a pencil eraser.

Check the cotton closely and as the first stalks in the field approach this stage

spray with a recommended insecticide. Most producers have been using Guthion at a .25 lb/acre rate. Other effective materials include ULV Malathion, Methyl Parathion, Tox plus Methyl Parathion and Sevin.

W. E. Beckhusen, Crops Committee chairman and a lot of growers have been successful in applying Guthion at or just prior to the 1/3 grown square stage and then applying Cygon for cotton fleahopper control from 7 to 10 days after the weevil control application.

Most years these two early season applications are all that is necessary to make your cotton crop. This does not mean however that you should not keep an eye on your cotton after this.

I consider a well-timed overwintered weevil application to be the most important factor in making a cotton crop.

**MAIL ORDER HERBACIDES**  
Some producers have been contacted by long distance phone calls regarding the purchase of herbicides and defoliants. Usually the caller indicates that an order has been placed and proper billing information is needed.

The cost of the herbicides, often referred to as numbers or unusual names, is usually higher than locally available materials containing the same active ingredient. Purchase herbicides from reputable sources rather than by long distance phone calls.

## Farm Bureau Opposes Consumer Protection Act

The Texas Farm Bureau, along with Farm Bureaus over the nation, is making a big push to defeat the Consumer Protection Act of 1977.

U. S. House and Senate Committees have reported out bills. H. R. 6118 and S. 1262 would create an independent, non-regulatory "Agency for Consumer Advocacy" charged with the responsibility of representing consumer interests before all federal agencies.

In an action - requested letter sent to all counties in Texas, the TFB urged that communications be sent to Congressmen, both Texas Senators, and to President Carter in opposition to the proposed Consumer Protection Act of 1977.

Farm Bureau policy on the matter reads in part: "We do not believe the government can protect every consumer in each of his transactions without infringing upon his personal freedom. We oppose the establishment of any consumer agency...."

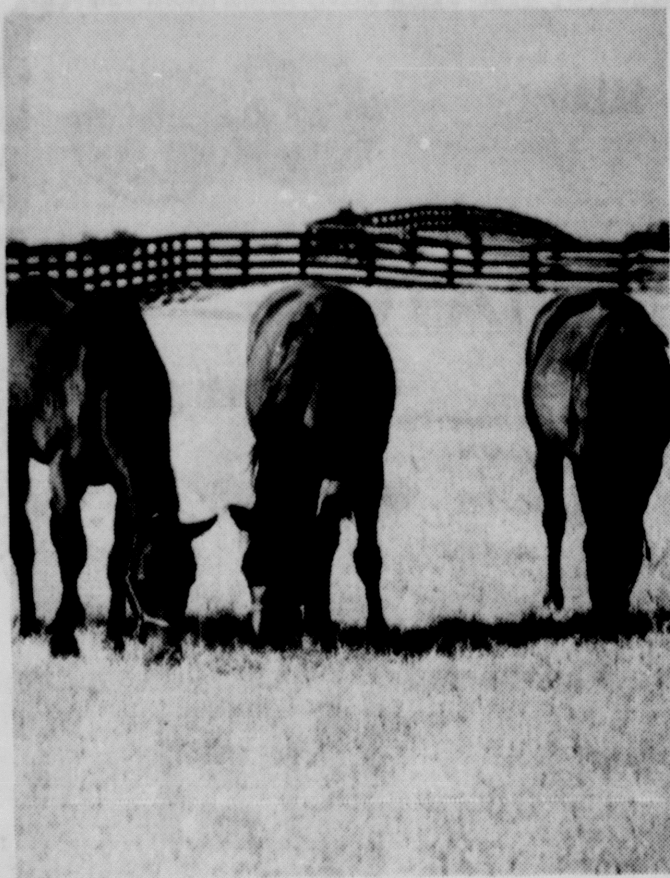

The Agency that would be established in the proposals would be directed by an administrator appointed by the President and confirmed by the Senate for a four-year term. The administrator and his staff could intervene in the actions of any federal agency which affects consumers, and could sue any agency in federal courts to force concessions on behalf of consumers.

According to Ed McKay, TFB national affairs director, prime areas of action for the Agency would be prices, quality, safety, availability, and reliability of products and services for consumers.

A consciousness in all America that we must tighten our belts to conserve energy and move with all deliberate speed in developing new sources of energy.

Speaking of the admission of agriculture's role in the plan, Brown said, "I have great confidence that President Carter, himself a farmer, Secretary Bob Bergland, and Undersecretary John C. White are monitoring these developments to assure a supply of agricultural fuels at prices which will ensure that farmers and ranchers can stay in business."

"All Americans have a stake in agriculture's ability to produce," Brown added. "They are as close to agriculture as the next meal."

**PROTECT HORSES**-Horse owners should vaccinate their animals against equine encephalitis (horse sleeping sickness) as warmer weather and increased mosquito populations bring danger of infection, according to Agriculture Commissioner Reagan V. Brown.

## Horse Sleeping Sickness Shots Urged by State Ag Official

**AUSTIN**--The warmer months of spring and summer should remind horse owners to vaccinate their animals against equine encephalitis (horse sleeping sickness), according to the Texas Department of Agriculture.

"When mosquito populations increase we often see an increase in the disease," commented Agriculture Commissioner Reagan V. Brown.

Effective vaccines are available, according to veterinarians of USDA's Animal and Plant Health Inspection Service (APHIS).

"Owners should remember, however, that the vaccines are effective for only one year," Brown said, "so revaccination is necessary each spring."

Combined killed-virus vaccines are available for eastern and western equine encephalitis (EEE and WEE), and also for eastern, western and Venezuelan (VEE). EEE and WEE occur seasonally in many parts of the country. VEE has not been diagnosed since 1971 when this foreign disease invaded South Texas.

Research has shown that VEE has a complex natural history and many hosts.

## Governor Endorses Checkoff

Texas Governor Dolph Briscoe today easily slipped into his role as a leading cattleman as he announced his support of a National Beef Referendum.

"This self - help program for cattlemen is the most bold and far reaching program in my memory. . . and possibly in the history of the cattle industry. I plan to register and vote 'Yes' in the upcoming Beef Referendum. Furthermore, I urge all cattlemen in Texas to inform themselves on the merits of this program, then register in June and vote 'Yes' in July."

Briscoe pointed out in a special capitol news conference that the national program would raise an estimated \$30 - \$40 million annually for research, education and promotion of beef. The funds would come from cattle producers themselves and would be voluntary. He said that cattle producers should go to their local ASCS office to register between June 6 and June 16 and then go back between July 5 and July 15 to vote.

More than 120 of his fellow cattle producers from around the State were on hand to hear the official endorsement. The producers represent the Texas Beef Development Taskforce, a statewide group working for passage of the Referendum.

The Texas Governor is recognized as a leader in the cattle industry and has served in various leadership positions in the cattle business.

## No Ag Plan in Energy Program 'Disappointing,' Brown Admits

**AUSTIN**--Admitting his disappointment that plans for agriculture were not specifically included in President Carter's energy plan, Agriculture Commissioner Reagan V. Brown said he "would do all I can to help the President achieve his conservation goals."

"But we will be just as vigorous in championing the cause of farmers and ranchers," Brown added, "for in the final analysis, as the farmer goes, so goes the nation."

The new commissioner, named in March to fill the unexpired term of the previous head of the Texas Department of Agriculture, said he felt the President's message "was straightforward and sobering."

## TP&L Names New Top Executives

J.F. Skelton was advanced to chairman and chief executive of Texas Power & Light Company and Robert K. Campbell was named president of TP&L at a meeting of the company's board of directors in Dallas.  
Campbell was also named a director at a meeting of company stockholders.  
Skelton was TP&L president and chief executive and Campbell was a vice-president prior to the board action.  
Skelton joined Texas Power and Light in 1937 as a clerk and secretary in the executive department. His association with the company was interrupted by Army Air Force service in World War II. Through the years he has served TP&L as accountant, district and division manager, assistant vice-president and general manager, and since 1972, president and chief executive of the company.

## Safe Home Precautions Advised For Vacations

By: Chris Holcombe

newspapers not be delivered while you are away.

Arrange to have the lawn mowed -- if the vacation is longer than a week.

Check locks on all outside doors and replace unsafe ones with a dead bolt lock. Ask a locksmith for specific information.

Be careful about telling strangers or casual acquaintances that you'll be away.

Inventories your possessions -- and have all household valuables engraved with your social security number or driver's license number. Ask the police about borrowing an engraver.

Consider a burglar alarm system if any homes in the neighborhood have been burglarized. A wide range of devices and prices are available, so compare them to find one that really suits your needs.

Ask a neighbor or your apartment manager to watch your home while you're away.

Tell the police if you plan to be away several weeks. Some police departments will patrol homes for vacationers. Tell police who you expect to be in your home during the vacation and give them your departure and return dates.

Leave several low wattage lights on, or connect them to a timer so they are only on for the evening hours. A radio that's on also can be a deterrent.

### Dance To Be Held At Holland SPJST

An effort is being made to institute a series of 5th Sunday dances in this area. Last year Kautz did these 5th Sunday dances at Ed's-281 club, located on highway 281 south of Marble Falls. Each dance drew a full house.

A dance will be held May 29 at Holland SPJST Hall from 6-10 p.m. with music by Kautz.

For information call Holland SPJST Hall.

### BIRTHS

Born to Mr. and Mrs. John A. Hanel, a son, Brian Andrew, born May 15 at 7:31 and weighed 9 pounds 2 ounces at Brownwood Community Hospital.

He is welcomed by a sister, Jennifer, 2 years old.

Grandparents are Mr. and Mrs. Clarence Hanel of Cameron and Mr. and Mrs. Jerry Marsh of Granger.

Great Grandmother is Mrs. Frak Hanel of Cameron.

### Homemaking Class Restores Antiques

Mrs. Alice Hughes' Homemaking Co-op class recently finished a project of restoring the natural wood finish to an antique handmade bed and clothes press loaned to the Milam Museum by Paul Nabors.

This furniture belonged to the House family, early settlers of Milam County.

Students in the class who participated in the project were: Rose Kopriva, Gloria Lopez, Billy Jack McCall, Rebecca McDaniel, Tina Posival, Cynthia Simicek, Gerry Stevens, Molly Story, Janet Trdy, Lynn Vybral, Diana Aguilon, Samuel Bell, Diane Doskocil, Lisa Elmore, Rebecca Griffin, Rhonda Holland, Raymond Jarmillo, Janene Meyer, Cheryl Mitchell, Laura Mueck, Mark Schigut, Ribhard Trubee, and Christene Garcia.

Furniture may be seen at the Milam Museum.

STRANGE INTERLUDE - Gary Conway, a World War II combat veteran, and Angel Tomkins, a gambler's moll, become involved in a love affair. It endures through a violent vendetta against an underworld ring in "The Farmer". A Columbia release opening at the 77 Drive In this Friday and Saturday, May 27-28.

### Understanding Appliances

--Read the instruction book before using an appliance and refer to it regularly until it is learned?

Expect an appliance to do something it was not designed to do? Understanding appliance capabilities is one mark of an educated consumer.

--Use only detergents specified for dishwashers and use recommended amounts?

--Make certain that dishwasher water temperature is between 140 degrees and 160 degrees F.?

--Clean the dryer lint filter after each use?

--Always check the filter below a microwave oven? Soiled or greasy ones can prevent air from cooking the magnetron tube, which may stop operation.

## Never Get Smart With An Angel Shows

Don Ameche, international star of stage and screen will appear in Austin Country Dinner Playhouse's production of "Never Get Smart with an Angel," which will run from May 24 until June 26.

This highly successful new dinner theatre comedy has been packing the houses in Dallas and Indianapolis, and this marks the second appearance of Don Ameche on the Country Dinner Playhouse circuit in Austin.

Ameche first attained national recognition as a radio personality in such shows as the original Chase and Sanborn show and the series, "Grand Hotel." He began his film career in the successful Fox Studios production, "Sins of Men," followed by such hits as "Romana," "Alexander's Ragtime Band," and "Swanee River." Television became a natural medium for this suave leading man, and he was featured in such programs as "International Showtime," "Name of the Game," and countless guest appearances.

In "Never Get Smart with an Angel," Don Ameche portrays Salvatore, a Catholic Italian immigrant, who is

anxious to get his doctor's son married, but so anxious for the daughter-in-law that his son chooses. Salvatore's hilarious lamentations are heard by his wife, Lucia who has been dead for seven years and is currently knitting wings for angels in heaven. His son's godfather, Carmine, gets in on the act, resulting in an evening of incredible comedy entertainment.

### Meetings

The Junior Girl Scout Troop #403 rounded out their scouting year with a tour of the Milam County Historical Museum. Mrs. Virginia Schuhler, tour guide pointed out bits of historical interests and things donated from the past to the girls.

The troop then took a bike hike out to the Elm Creek Dairy Farm where Biff Harris, tour guide explained the operation of the dairy.

The girls and their guests ended the day with a bike ride to the city park and a picnic lunch.

The troop leaders in charge were Mrs. Derwood Cobb, Miss Linda Clark and Miss Linda Stout.

## Letters

Dear Sir:

I would like to use your newspaper's letters to the editor or any other way to inform all veterans of the 2nd Armored "Hell on Wheels" Division about our reunion at Killeen, Fort Hood, Texas, the home of "Hell on Wheels" Division, July 13-16, 1977.

Our World War II roster has been lost and this is the "Hell on Wheels" about it and there are thousands of them.

The present 2nd Armored Division has reconstructed the 2nd Armored Museum with the help of Gen. George Patton, Jr. III, and hundreds of the Hell on Wheels. That will be one of our features.

Veterans may write to Robert Pryor, President, 2nd Armored Division association, 8562 Ariel Street, Houston, Texas 77036, Phone 713-774-6837.

Thank you.

Yours truly,  
Gabe Struggles

# Methodists To Approve Focus

A three year strategy for evangelism which focuses on membership growth is expected to be approved by the Texas Annual Conference meeting here May 30-June 2 at First United Methodist Church.

The plan has the approval of the annual conference's Council on Ministry and calls on the 777 United Methodist churches in the 57-county area of East Texas "to gather persons into the fellowship of the church."

"We intend to confront each individual person with the whole Gospel," said Bishop Finis A. Crutchfield, resident bishop of the Houston Area.

"We present that Gospel with the prayerful expectation of an affirmative response and subsequent expression in all areas of personal and social life of the individual," said Bishop Crutchfield.

This evangelistic thrust comes on the heels of a report showing a net gain of 3081 members over the past four months. In January the conference reported its first membership increase in several years with a 2950 net gain for 1976.

Four lay candidates are expected to be consecrated Tuesday evening (May 31)

into the new Diaconal Ministry of the denomination, a professional career in the employed status of the United Methodist Church by action of the 1976 General Conference. Another twenty individuals, formerly consecrated as Lay Workers and meeting the qualifications for the new office, will be transferred to the Office of Diaconal Ministry.

Dr. W.T. Handy, Jr., Nashville, vice-president of the United Methodist Publishing House, will be the conference preacher for the annual meeting speaking on Monday evening at 8 o'clock and Tuesday morning at 11.

Dr. Thomas M. Price, Superintendent of the Nacogdoches district, delivers the memorial sermon during the opening afternoon session at 2 on Monday (May 30).

Other items to be considered by the conference include:

Updating the conference rule to correspond to General Conference action.

Authorization of the expenditure of \$50,000 for the construction of a building at Lakeview Methodist Assembly near Palestine.

They are now pushed out of the nest. Meantime, these baby birds are still looking to their mother, chirping for their food. She'll get it for them. But when the time comes to let them go, she will know it instinctively.

Human mothers are not always so wise. It is hard to see your children go out to face the world on their own. Sometimes your instinct is to keep them in the nest.

You have to let your children go. But will they go with a firm sense of values, level hearts and heads, knowledge of the meaning of faith?

Where to find all this? Try your church!

## Austin Hosts Church Of Christ Meet

The annual meeting of the South Central Conference of the United Church of Christ was held May 21-23 at Huston-Tillotson College, Austin.

The theme of the conference was "Power Sharing Mission." Presenting the theme were the Rev. J. Martin Bailey, editor of A.D., the national magazine of the United Church of Christ and the United Presbyterian Church; and the Rev. Ms. Yvonne Delk, from the United Board for Homeland Ministries.

Current issues coming before the assembly were world hunger, violence and crime, racism, the quality of life and importantly the enlarging ministry to the rapidly increasing population in Texas.

On Sunday evening the assembly celebrated the 20th anniversary of the United Church of Christ. Twenty years ago, four strands of Protestantism, namely the Reformed Church in America, the Congregational and Christian Churches, and the Evangelical Church came together to become the United Church of Christ.

More than 250 clergy and lay delegates from Texas, and New Orleans, La. and surrounding area were in attendance. Representing the United Church of Christ of Ben Arnold were Mr. and Mrs. Raymond Lindeman, Burlington, and the Rev. and Mrs. C. E. Wierth of Ben Arnold.

## Don't Take Fawn For Pet, Says Wildlife Dept.

Lying there curled up in the high grass, with its big brown eyes staring up at you, it seems to be crying for help. Actually, the little deer is frozen with fear and trying to tell you to leave it alone.

It is illegal under state law to molest a fawn deer, says the Texas Parks and Wildlife Department. Besides, if it survives in captivity, its adult, sharp hooves and antlers will become dangerous weapons.

that can send even grown-ups to the hospital with serious injuries and are especially hazardous to small children and pets.

Most fawns taken captive do not live longer than a few days. The change from their normal diet and the nervous stress of being abruptly removed from their natural home bring reactions that lead to death.

The pet deer that survives also is doomed. Taught to live out of a feed trough and with no fear of man, it is ill-fitted to make its way in the wilds, but that's where it has to be when confiscated eventually by the game warden, as the law requires.

That little fawn you discovered isn't lost or sick at all. It's mother left it there about daylight, knowing it would not move until she came back. Chances are she's watching you fearfully from the edge of the woods.

So, when you are out in the woods this spring and stumble onto the most beautiful little creature you have ever seen, photograph it and admire it but otherwise leave it alone. The baby deer, its mother and the P&W Department will all appreciate your action.

Wild animals are at home in the out-of-doors. It is an inspiring sight to encounter them there. Everyone should understand that this is the way it should be.

## Tovella Joins Pack For Texas 500

Sal Tovella, one of the hardest charging veterans and third place finisher in the national standings last year, has entered the TEXAS 500.

Tovella, from Chicago, will drive his "hemi" engine Plymouth in the Fifth Annual Classic at Texas World Speedway on Sunday June 5.

Texas race fans best remember him for his battle last year with A.J. Foyt who beat him at the finish of the August 150 mile race by a nose.

Both Tovella and Foyt had been exchanging the lead and running side by side throughout the race. In the last few laps both had to pit for fuel and Foyt decided to change tires. Tovella omitted the tire change preferring to save the time and get back on the track ahead of Foyt.

but new tires gave Foyt a better grip on the track and allowed him to run a different groove enabling him to just get by Tovella at the finish.

A year earlier at Trenton Speedway, Tovella beat A.J. in a similar battle.

Sal Tovella considers A.J. Foyt "the greatest" and definitely the man to beat. "anytime you race with A.J. you know you've worked awfully hard," he said. "Beating him is the greatest thrill any driver can have. I'm going to do my damndest."

Tovella will be going after his first national championship this season having finished third the past two seasons. He drove his first race way back at Soldiers Field in Chicago and was " Rookie of the Year" in 1963.

The earliest forerunner of the motor car is believed to be a three-wheeled steam-driven carriage built in 1769-70. It ran for about 20 minutes at two to three miles an hour.

"The two days after fertilization are critical to survival of striper eggs," said Mulford. "In 65-degree water it takes some 48 hours for the larval fish to develop mouth parts and another two days for them to be strong enough to maintain themselves in a horizontal position and swim against the current."

Mulford said spent adult stripers which already had spawned were scattered in the river between the two lakes.

"During these first two days the larval stripers are at the mercy of river currents. They must be kept in suspension by the current. If they drop to the river bottom they will suffocate and die."

Conditions on the Brazos were perfect this spring for maintaining striper larvae while they developed. Substantial rains on the watershed have provided ample water to keep the young fish moving after they hatched.

Mulford also suspects striped bass have spawned between Granbury and Lake Possum Kingdom.

"We caught a 12-pound mature female bass in the vicinity of the U.S. Hwy. 180 bridge," said Mulford. "Although we have had no chance to set egg or seine nets to confirm a spawn in this section of the Brazos River, there is a good chance most of the sexually mature stripers already have spawned."

Striped bass were first stocked in Lake Granbury in 1972. Male fish mature in two years but it takes females four years to reach sexual maturity.

This is the first year a natural spawn of stripers could have been possible in the Brazos River.

Mulford and other department biologists say they cannot hope for a successful natural spawn on the Brazos each year since a great deal depends on high flows of water.

The Cameron Cardinals defeated the Salado Pirates 33-3 in a game played at Colonial Field in Cameron Sunday.

Kenneth Scott was winning pitcher and Dee Rose was catcher. Lee Roy Dossocil homered for the Cards and Kenneth Scott, Lonnie Scott and Ben White also had round trips.

The Cameron Cardinals will meet the Rockdale Lobos here Sunday with the first game starting at 1:30 p.m.

PANAMA REDS

In a game played Sunday at Mumford, the Bryan Cubs defeated the Cameron Panama Reds 9-7.

The Reds will travel to Harker Heights Sunday to meet the Eagles there.

Miss Frances Garmore, TJC girls' basketball coach, will be the director of the clinic. Activities will include fundamentals of basketball including passing, shooting, pivoting and conditioning drills as well as basic offensive and defensive techniques. Participants will be organized into leagues and Friday will be awards day. The all-star game will be played at 1 p.m. on Friday.

Cost is \$18.50 per person per session. Registration should be completed by June 1.

Additional information may be obtained by contacting the TJC Continuing Education Office at 773-9981, ext. 66.

RIDERS WANTED: Have 4 horsepower WAGON leaving for Oregon Territory. MUST SHARE Expenses. Moving can be very troublesome. Especially when you're off to settle the wilderness. The roads were terrible. No restaurants along the way. Why, the trip itself took months. But, if you were willing, the government would give you land. Land that was bought and paid for with money raised from Americans taking stock in their country. So thousands had a little hand in every homestead. Today, millions of Americans are still taking stock in their country by buying U.S. Savings Bonds. Because whether you purchase Bonds through the Payroll Savings Plan at work, or through the Bond-A-Month Plan where you save, you're putting your money where it counts the most. For you and for your country. So buy U.S. Savings Bonds. They'll put your savings on the right road. Now E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). ## CTA Will Host Second Tourney

Tennis players from all over Texas will converge on the Cameron tennis courts May 28-29 to participate in the Cameron Tennis Association's second Annual tournament.

Nearly 60 participants will be present for the two day affair, including entrants from Austin, Temple, Caldwell, Hearne, Calvert, Cameron and Rockdale. This tournament marks the second for the Tennis Association, with the turnout equally as good as last year.

Events will include Men's singles and doubles in the 21-35 age bracket, Men's singles and doubles in the 35 and over age group, women's singles and doubles 21-35 and Women's singles and doubles 35 and over, and a mixed doubles event will also be held.

Whether you are a participant or just a spectator, you can bet that the Cameron Courts will be booming with action for the weekend.

## TJC To Host Fem Basketball Clinic

Temple Junior College will sponsor a Girl's Basketball Clinic in June for area high school and junior high school basketball players.

There will be two one-week sessions, held from 7 a.m. to noon in the TJC Health and Physical Education Building. The first session will be June 6-10 and the second session will be June 13-17.

Miss Frances Garmore, TJC girls' basketball coach, will be the director of the clinic. Activities will include fundamentals of basketball including passing, shooting, pivoting and conditioning drills as well as basic offensive and defensive techniques. Participants will be organized into leagues and Friday will be awards day. The all-star game will be played at 1 p.m. on Friday.

## This weekend, call both families for practically the price of one.

It's true! This weekend—and every weekend between 11 p.m. Friday and 5 p.m. Sunday—you can place two Long Distance calls for practically the price of one weekday evening call, when you dial the 1+ way.

For example, a 10-minute call to someone a thousand miles away weekday evenings (5 p.m. to 11 p.m., Sunday-Friday)

would cost you \$2.44, plus tax. Which, you'll admit, isn't bad.

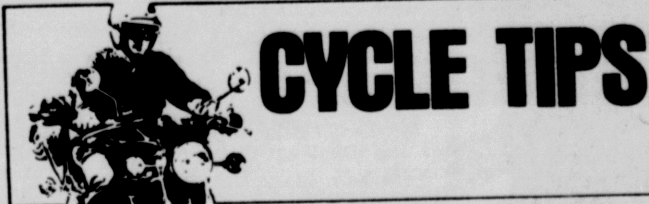

But for practically the same price, you could make two eight-minute calls over the same distance...any weekend.

It's almost like getting one call free!

So this weekend, enjoy a couple of Long Distance calls. And make three families happy!

Long Distance. What else is so nice for the price?

## Motorcycle Racing Demands Protective Race Wear

Motorcycle racing season is in full gear. Off-road and enduro riders are getting back on the trails. Kawasaki's top motocross riders, Jimmy Weinert and Gary Semics, offer hints for competition and trail riding apparel for maximum protection.

- 1) Along with protecting your head, an approved safety helmet reduces noise which can be ear damaging.
- 2) Select good leathers, a combination of light cowhide pants with nylon in areas where less protection is needed. Make sure you have adequate knee, shin and hip protection.
- 3) Select proper mouth guard and goggles. Make sure breathing is not restricted by the guard and visual interference is minimized by goggle or face shield lens.
- 4) Shoulder pads, ultra light but strong, offer protection for collar bone and shoulder tip areas, biceps and

upper arms.

5) Your body's natural air-conditioning system works best during a motocross race when wearing a synthetic jersey perforated for air flow.

Reasons why you should wear protective race gear are plain as the mud on the rider.

To preserve body fluids on a long desert run, a solid cotton jersey is recommended.

6) Wear proper fitting motocross boots. Boots are usually a one-piece leather design with cinch straps, shin plates and toe caps. Smooth soles and steel reinforced arch plates give extra support and protection.

7) To minimize internal body shock, wear an elastic/canvas kidney supporter that adjusts to practically any waist size.

8) Protective racing gloves, lightweight with extra thick palms, are a must.

Another comfort tip the Kawasaki racers suggest is baby powder to absorb moisture. Use it in your boots and in your leathers. Avoid neck rub from jacket collars; sew in a piece of terry cloth.

You may not make the winner's circle everytime in your racing wear, but you'll feel better.
